

Cloudfish is an exceptional duo of voice and violin. A unique blend of songs and improvisation, aiming for atmosphere and emotion.

Cloudfish consists of Hartog Eysman and Jasper le Clercq. They have developed a sixth sense for interplay, constantly reacting to each other. Their music evolves like a kaleidoscope.

Songs are never once played in the same way. Every version is a fresh exploration of the material. Where the adventure takes them is a surprise, a reinterpretation, a remix.

The result is like a film, made out of sound. Textures and layers are created by Le Clercq's violin loops and effects. Sometimes minimal, with small motifs just colouring the silence. Sometimes dramatic, with rhythms and melodies building up to a climax.

Jasper le Clercq played 25 years in the Zapp4 string quartet. He also plays in theater productions like 'Ausdauer' for which he also composes.

De Volkskrant "Often with humor, sometimes moody and moving, but always original and accessible."

Hartog Eysman released four solo albums as an indie singer-songwriter. In previous projects he sang jazz, soul and broken beats.

3voor12 "Transports the listener, over mountains high and valleys low."
